Inspector A. E. BENNETT, M.R.S.H., M.A.P.H.I.

To the Norman Cross Rural District Council

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in submitting my eighth Annual Report upon the sanitary conditions of the District for the year ended 31st December 1965.

The District lies mostly to the south of the City of Peterborough running right across the new County of Huntingdon and Peterborough from its eastern to its western boundaries.

The chief industries are agriculture and brickmaking, and there is also some engineering and a tar distillery. Peterborough can be easily reached and most of the people who live on the large estates which have been built in some of the parishes, chiefly Yaxley, Orton Longueville and Orton Waterville work in the City. At peak travelling times the roads to the City become very congested and the need for a second bridge across the river to give entrance to Peterborough is becoming acute.

The Registrar General estimated the mid-year population to be 10,200 an increase of 650 over the previous year.

There were 191 live births during the year, the birth rate when adjusted being 18.2 per thousand population. The rate for England and Wales was 18.0 during the same period.

Ninety four deaths occurred during the year, the crude death rate of 9.2 per thousand being low, but when adjusted by the comparability factor the rate becomes 11.8 per thousand which is slightly above the national rate of 11.5

There were 5 infant deaths during the year, giving an infant mortality rate of 26.2 per thousand births. The national rate is 19.0.

Six deaths occurred during the year from lung cancer, all of them being men.

There was little notifiable infectious disease in the District during the year, Measles (84 cases) being the most common. No new cases of tuberculosis were notified, neither did any deaths occur from this disease.

The Surveyor and Public Health Inspector's report clearly shows the extent of the building that is going on in the District both by the Council and by Private Enterprise. As the new Council properties were completed and occupied, it became possible to close or demolish much of the old and unsatisfactory property in the villages of Stilton and Farcet, which have been a worry to us all for so many years.

The water supply throughout the District has again been maintained, but only with considerable difficulty. The position will not be better until the Comprehensive Improvement Scheme has been completed. Work on this should begin in 1966.

The Elton, Holme and Sibson-cum-Stibbington drainage scheme began in January 1965 and is still in progress. Alwalton and Chesterton are to follow in 1966 and will be drained to Stibbington.

The introduction of the weekly refuse collection during the year has been a very great asset to the District and has been appreciated by everyone. I am sure that it is worth its cost, and the considerable amount of consideration and planning that went into it.

In conclusion I wish to thank the Members of the Council and their Officers and Staff, and my Professional Colleagues in the District, for the help which they have so willingly given to me throughout the year.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area						35795 acres
Estimated Population (mid 1965)						10,200
Density of persons per acre						0.28
Number of Inhabited Houses, end of 1965						3227
Rateable Value, 31/12/65						£358,777
Value of Penny Rate, 1965/66						£1420

VITAL STATISTICS.

Live Births							191
Live birth rate per 1,000 population							18.7
Illegitimate live births per cent of total live births							6.8
Still-births							4
Still-births rate per 1,000 live and still-births							20.5
Total live and still-births							195
Infant deaths							5
Infant mortality rate per 1,000 live births—total							26.2
Maternal deaths (including abortion)							Nil
Maternal mortality rate per 1,000 live and still-births							Nil
Death rate per 1,000 population							9.2

INFANT DEATHS

	1960	1961	1962	1963	1964	1965
Actual Number of Deaths	0	4	3	2	7	5
Rates All Infants Per 1,000 Live Births	0	25.8	19.9	11.0	36.3	26.2

Deaths from Cancer (total)						18
Malignant Neoplasm Lung, Bronchus						6
Coronary Disease—angina						23
Other Heart Disease						12
Deaths from Diarrhoea (under 2 years)						Nil

Comparison of rates with those of England & Wales.

	Per 1,000 Population				Per 1,000 Live Births	Per 1,000 Total Births
	Live Birth Rate	Ad-justed Birth Rate	Crude Death Rate	Ad-justed Death Rate	Infantile Mortality Rate	Still Births Rate
Norman Cross R.D.C.	18.7	18.2	9.2	11.8	26.2	20.5
England & Wales	—	18.0	—	11.5	19.0	15.7

Comparability Factor for Births						0.97
Comparability Factor for Deaths						1.28

(The Comparability Factors are figures by which the crude-birth and death rates need to be multiplied so as to find the adjusted rates. The adjusted rates are then comparable with the rates for England and Wales, or the adjusted rates of any other place in the Country.

The Registrar General calculates the factors from information available to him concerning, amongst other things, the age and sex structure of the population.)

The following table shows the classification of deaths from all causes (Registrar-General's figures) :—

CAUSES OF DEATH.	Males	Females	Totals
All Causes.	49	45	94
1. Tuberculosis, respiratory	—	—	—
2. Tuberculosis, other	—	—	—
3. Syphilitic disease	—	—	—
4. Diphtheria	—	—	—
5. Whooping Cough	—	—	—
6. Meningococcal infections	—	—	—
7. Acute poliomyelitis	—	—	—
8. Measles	—	—	—
9. Other infective & parasitic diseases	—	—	—
10. Malignant neoplasm, stomach	2	1	3
11. Malignant neoplasm, lung, bronchus	6	—	6
12. Malignant neoplasm, breast	—	1	1
13. Malignant neoplasm, uterus	—	—	—
14. Other malignant & lymphatic neoplasms	2	6	8
15. Leukaemia, aleukaemia	—	1	1
16. Diabetes	—	1	1
17. Vascular lesions of nervous system	4	7	11
18. Coronary disease, angina	12	11	23
19. Hypertension with heart disease	—	—	—
20. Other heart disease	5	7	12
21. Other circulatory disease	3	—	3
22. Influenza	—	—	—

36. Homicide & operations of war	—	—	—

Surveyor and Public Health Inspector's Office,
18, Priestgate,
Peterborough.
June 1966.

To: The Medical Officer of Health.

Sir,

I have the honour to present my sixteenth Annual Report, for the year ended 31st December 1965.

HOUSING: The number of new dwellings built since 1945 is as follows:

(a) By the District Council

		UP TO 31.12.1963		DURING 1964		DURING 1965	
Alwalton	4	Morborne	4	Stilton	12	Stilton	10
Chesterton	2	Orton Longueville	6			Orton	
Elton	18	Orton Waterville	10			Waterville	4
Farcet	44	Stibbington	2			Farcet	24
Folksworth	2	Stilton	47				
Glatton	4	Yaxley	185				
Holme	20						
Totals		348		12		38 = 398	

With the 87 pre-war and war-time houses, the Council now own 485 dwellings.

Dwellings under construction by Council.

Stilton—10 Houses and 10 Bungalows.

Farcet—22 Houses.

Yaxley—28 Flatlets and Warden's Flat, Ashton House.

Plans approved or in Preparation:

Sites at Farcet, Alwalton, Elton, Yaxley, Holme, Stilton and Stibbington.

(b) **by Private Developers :—**

The number of dwellings completed since January, 1947 is as follows :—

YEAR	HOUSES	BUNGALOWS	TOTAL
1947/52	33	11	44
1953	20	6	26
1954	20	26	46
1955	24	26	50
1956	29	31	60
1957	16	32	48
1958	19	16	35
1959	13	44	57
1960	41	36	77
1961	30	42	72
1962	32	59	91
1963	73	56	129
1964	112	69	181
1947—64	462	454	916

Completed During 1965.

PARISH	HOUSES	BUNGALOWS	TOTALS
Chesterton	—	2	2
Elton	2	3	5
Farcet	2	1	3
Folksworth	1	1	2
Holme	4	2	6
Orton Longueville ..	42	35	77
Orton Waterville ..	9	1	10
Stibbington	2	—	2
Stilton	4	4	8
Yaxley	67	5	72
	133	54	187

Total private dwellings erected since 1947 = 1103.

Private dwellings under construction at 31st December 1965 =
110 Houses and 53 Bungalows = 163 Dwellings.

Private Enterprise Housing. Over the past 6 years there has been a considerable increase in numbers of houses built by private enterprise, 1964 being a record year with 181 properties completed, this being an increase of 40% over the previous year. 1965 shows only a small increase, but even if the present level can be maintained, it will compare very favourably with districts of similar size. Mortgages were difficult to obtain in May and June, and this slowed progress for a time.

Work on building estates at Orton Longueville and Yaxley continued satisfactorily. At Yaxley a small estate commenced at Westfield Road (off Church Street,) the first house being occupied in June; outline consent was given to an estate of 100 properties at Malting Piece, Yaxley in October. Mitchell Construction Developments Ltd., applied during the year for consent to build on land off North Street, Stilton, an area that could develop into an estate of considerable size.

The Building Inspector’s work during the year is as follows:

Inspections:				
Private Housing	New building work	..	..	3,386
	Alterations and additions	..	..	217
Council Contracts	Housing sites	..	..	838
	Repainting of houses	..	..	23
	1937 Type Improvements	..	..	24
	S.W.Sewer, Orton Waterville	..	..	79
Foul Sewer Tests	Satisfactory	..	..	35
	Unsatisfactory	..	..	12
Drain Tests	Satisfactory	..	..	259
	Unsatisfactory	..	..	73
	Connected to Sewer	..	..	209
	Connected to septic tank	..	..	26

Details of plans and applications submitted during the year are as follows:

New Houses	33	Conversions to dwellings	8
Bungalows	32	Electricity lines	17
Garden, Tool and Store Sheds	3	Greenhouses and Conservatories	14
Agricultural Buildings	26	Temporary Dwellings	1
Garages	56	Caravan Applications	13
Outline Applications	47	Miscellaneous	32
Notices and Signs	6		
New Accesses	6		
Alterations and Additions	45	TOTAL	339

Council House Building. An amended 5 year building programme was approved in February and has since been agreed by the Ministry. Wet weather in the early part of the year delayed work on Stage 2 of the Church Close, Stilton development, the first house not being occupied until November. A layout has been prepared for Stage 3, the access to High Street being amended to keep clear of land used by a neighbouring industrial concern.

At Farcet, Stage 1 is under way at the rear of the Church, but again wet site conditions have not made the work easy. A layout has been prepared for further stages, incorporating a small piece of land in the neighbouring Urban District of Old Fletton. This layout will include a road improvement and demolition of old farm buildings so that a very pleasant corner should result. Some of the farm buildings and properties

have already been demolished, and clearance of the pig rearing premises will be completed as soon as the tenant leaves.

At Alwalton the lengthy negotiations for land purchase continued, but building work and laying of sewers for the whole village should commence in 1966. On this estate four houses will have whole house heating by warm air, two by oil and two by electricity.

The layout for building at Elton has been approved. The detailed plans can now be prepared so that the houses are ready when the public soil sewer is available.

At Holmewood the tender for 14 houses, 7 garages and road-works was approved in October.

Work on construction of 4 flats, garages and road-works at Orton Waterville commenced in December 1964, but progress during 1965 was very slow.

The proposal to build at Orton Longueville was deleted from the programme during the year at the suggestion of the Parish Council.

A new layout was prepared for the Council-owned site at rear of Church Lane, Stibbington in order that an improved line of new public sewer could be laid and the new house types incorporated. The intention is for houses to be ready for occupation when the new sewer is operational. However, the County Planning Committee considered that houses should not be built on the site. An appeal has been lodged and a Public Inquiry will be held in 1966.

The scheme to build Ashton House, flatlets for the elderly (28 flatlets and Warden's flat) was commenced in July. Good progress has been made despite difficulties in the early stages.

A layout has been prepared for 13 bungalows and 7 garages at Manor Close, Yaxley, using allotment and garden land already in Council ownership.

An aerial survey and small sketch layout has been prepared in connection with future housing adjacent to Queen Street, Yaxley, but until further instructions are received this site is in abeyance.

Improvements to the 1937 type houses at Yaxley (8), Farcet (3) and Stilton (4) were completed during the year.

Further land drains were laid at Ermine Crescent, Stilton, to complete a scheme prepared for implementation over several years.

At Stibbington the Green in front of the Church Lane, Council houses, has been levelled and turfed and a metalled road constructed.

The cavities between the concrete outer skin and the plasterboard lining to the walls of 20 "Airey" type houses at Farcet were filled with insulating material early in the year. This has resulted in a considerable improvement in comfort. The work was done from the outside by injecting the insulating material as a liquid foam.

Various central heating schemes have been examined under working conditions, with a view to preparing schemes for existing Council houses.

Housing Action and Improvement. Nine Closing Orders and sixteen Demolition Orders were made during the year; three Undertakings not to relet were accepted. Thirty houses were demolished, seventeen being the result of Demolition Orders and thirteen for other reasons; this activity was possible because of the new Council properties becoming available in Stilton and Farcet.

Applications were received for two Discretionary and twenty-five Standard Grants.

There are no Common Lodging Houses and no overcrowding within the meaning of the Housing Acts.

Water Supply. In January 1965 the position with Peterborough City's water supply was so desperate that all authorities taking water from the City were asked to take immediate steps to conserve water. The output from the City supply was cut by 20% and both pressure and quantity going to supply was reduced. Such action has an immediate affect on this district, where there is no high level storage in quantity; every effort was made to keep inconvenience to consumers to a minimum, but inevitably there were some areas without water at various times.

Owing to the uncertainty as to type and position of central re-development in Peterborough, the Albert Place bypass is to be delayed for at least 12 months. The laying of a proposed 24" water main in the City is dependent on the bypass construction for many reasons, and therefore the mainlaying may be delayed for 2 or 3 years. This main would have been a welcome addition to supply for those areas south of the River Bridge.

The Minister of Housing and Local Government wrote to water authorities in this area in April 1965, stating that he proposes to make an Order to extend the limits of supply of the South Lincolnshire Water Board to include those areas at present served by the Peterborough City Water Undertaking. Since that time little has been heard of this matter.

A ban on the use of hosepipes for garden watering was in force from May to September. This will be necessary until the Comprehensive Improvement Scheme has been completed, so that there is sufficient storage and pumping capacity to ensure a sufficient supply for essential domestic needs. Tenders for the Comprehensive Improvement Scheme were received in August and Ministry agreement to the Tender of the Stamford Construction Company was received in December; work should commence early in 1966.

During the year 223 domestic, 10 metered and 202 building supplies were connected. There were 31 burst mains and 40 burst services. Water consumption was 55,295.2 thousand gallons on metered

supplies and 100,259.7 thousand gallons on domestic, a total of 155,554.9 thousand gallons. The domestic consumption was 26.9 gallons per head per day. On the total supply the consumption was 41.7 gallons per head per day. This amounts to an increase of 6 million gallons in the 12 months of domestic consumption, but taking the gallons per head per day figure, there is actually a slight drop.

The statistics of the water supply to the district are as follows:

PARISH	Number of Premises	Number Without Main Water	Number of Houses Supplied from Main	Population Supplied from Main
Alwalton	80		80	200
Chesterton	47		47	150
Denton & Caldecote	27	3	24	80
Elton	192		192	550
Farcet	380		380	1300
Folksworth & Washingley	106	4	102	300
Glatton	69	2	67	180
Haddon	23		23	70
Holme	158		158	500
Morborne	16		16	50
Orton Longueville	625	1	624	1865
Orton Waterville	171		171	550
Stibson-cum-Stibbington	156	2	154	500
Stilton	250		250	730
Water Newton	33	1	32	75
Yaxley	1014	6	1008	3100
TOTAL	3347	19	3328	10200

There are no street standpipes.

The water supplied in the district is purchased in bulk mainly from Peterborough and is distributed to all Parishes; a small area at Stibbington is supplied from the South Lincs. Water Board.

35 samples of water were taken during the year and were sent for bacteriological examination. 4 samples were reported as unsatisfactory of which 3 were from new mains which were re-chlorinated, flushed and re-tested and one from a well which is not used for drinking purposes. No chemical examinations of water were made during the year. The main water is within the "very hard" category and is not plumbo-solvent.

The Fluoride content is low, being between 0.11 and 0.18 parts per million.

There are no public swimming baths in the district, but there are four shallow plastic lined beginners pools at Schools at Holme, Orton Longueville, Stilton and Yaxley and a larger conventional pool at the Orton Longueville School.

Drainage. By the end of 1965 drains from 2080 properties had been connected to the public sewers in Yaxley, Farcet, Stilton, Orton Longueville and Orton Waterville.

4 Cesspools were abolished and the properties connected to the public sewer.

1 Pail was converted to W.C.

29 New Septic Tanks were provided in unsewered areas.

Drainage Contract No. 9 for the provision of soil sewers and sewage disposal works in the parishes of Elton, Holme and Sibson-cum-Stibbington commenced at Elton in January 1965. Work continued at Holme in April and finally at Stibbington later in the year. Reasonable progress has been made, although there have been difficulties in obtaining satisfactory reinstatements in some cases, mainly on deep sections in main roads. Preparation of layouts, etc., at Elton and Stibbington are proceeding with a view to synchronising house completions with sewer availability.

The scheme for the soil drainage of Folksworth, Alwalton and Chesterton has been brought forward, preparations being made for the sewerage of Alwalton and Chesterton to be done during 1966 so as to be ready for the new houses to be built at Oundle Road, Alwalton. The drainage from these two parishes will be pumped to the disposal works now being constructed at Stibbington.

A surface water sewer was laid at Cherry Orton Road, Orton Waterville, including provision for part of a new estate, dyke piping and capacity for extra gullies to deal with areas previously subject to flooding.

I attended a Sewage Treatment Course organised by the Rural District Councils' Surveyors' Association in May.

Refuse Collection. The weekly collection scheme commenced in June, using a new 35 cubic yard compressing type vehicle for the majority of the area and the old vehicle for certain smaller villages and outlying areas. A tractor shovel with digger attachment was purchased for tip maintenance. The tips are certainly in a better condition than ever before, and with minor amendments, the collection scheme has worked well. With the continuing new building in the Orton area it became apparent by the end of the year that as anticipated in the original report, it will be necessary to alter the scheme in the near future and perhaps offer improved incentives.

Meat and Food Inspections. 98 % inspection of meat at Farcet Slaughterhouse was carried out although the slaughtering is always in the evenings or at weekends. Fewer sheep were inspected than in 1964, but a greater number of pigs were killed. Marking of all meat has been carried out in accordance with the Regulations, but it is not possible to do any ante-mortem inspection. The statistics are as follows:

Carcases and Offal Inspected and condemned in whole or in part.

	Cattle Exclud- ing Cows	Cows	Calves	Sheep & Lambs	Pigs	Horses
Number killed (if known)	99	1	—	235	4553	—
Number inspected	99	1	—	235	4503	—

**All diseases except
Tuberculosis & Cysticerci**

Whole carcasses condemned	1	1	—	—	1	—
Carcases of which some part or organ was condemned	15	—	—	2	231	—
Percentage of the number inspected affected with disease other than tuberculosis & cysticerci	16.16	100	—	0.84	5.15	—

Tuberculosis only

Whole carcasses condemned	—	—	—	—	—	—
Carcases of which some part or organ was condemned	—	—	—	—	173	—
Percentage of the number inspected affected with tuberculosis	—	—	—	—	3.84	—

Cysticercosis

Carcases of which some part or organ was condemned	2	—	—	—	—	—
Carcases submitted to treatment by refrigeration	2	—	—	—	—	—
Generalised and totally condemned	—	—	—	—	—	—

Meat Inspection Fees — £187. 10. 0.

Statistics relating to Food Premises are as follows:—

1. No. of Food Premises by type of business.

Bakehouses	Nil	} 88 Premises. (None has been counted under more than one heading).
Butchers	4	
Cafes	5	
Confectioner	1	
Fish and Chips	4	
General	27	
Greengrocer	1	
Public Houses & Clubs	24	
Sweets	11

Inspections.

3,253 visits were made by Public Health Inspectors, as follows :—

New Buildings	53	Housing & Public Health	
Sewers and Drains	160	Acts	114
Rodents	39	Caravans	9
Refuse Disposal	105	Council, Committees and	
Water Supply	89	Conferences	25
Council Houses	461	Vermin	12
Offices, Shops and Railway		Interviews	1864
Premises Act	8	Factories Act	46
Meat and Food	189	Miscellaneous	78

Miscellaneous. The Scrap Metal Dealers Act 1964 and the Riding Establishments Act 1964 came into force during the year.

A large area of new brick workings was proposed in Holme Lane, in the Parishes of Holme and Glatton.

One new 235' brick chimney was approved for Beeby's Brickworks in March 1965.

A Trunk Road street lighting scheme was approved for Yaxley Cross Roads.

The new Agricultural Showground Site at Oundle Road, Alwalton was approved in July 1965.

The Counties of Huntingdon and the Soke of Peterborough amalgamated, one result being that the Planning Office for this area is now in Peterborough.

In conclusion, I should like to thank the staff for their help during the year.

H. ERIC REEVE,
Surveyor and Public Health Inspector.

The following table gives the incidence of notifiable diseases (other than tuberculosis) in the area during 1965.

Total Deaths																			
Cases admitted to Hospital																			
65 & upwards																			
45 — 65
